

# Kids Hope over 1 year

Communities That Care (CTC) data identified that family conflict is a problem in our community. Mentoring was then provided via KIDS HOPE AUS, an evidenced-based program that develops emotional and social resilience in children. The program builds on long-term partnerships between local primary schools and carefully selected church volunteers, who mentor a child for one hour per week through school-based activities.

**200 hours**  
of volunteer  
mentoring complete

**8 schools**  
participated

**33 young people**  
individually mentored
