Submission Detail

Under the Connectivity heading, I would have liked to see the shire making strong representations to have the peninsula connected to the metro transport system to make it easier for people working outside the peninsula to use less car journeys. this would then feed into the carbon neutrality position of council. Under the prosperity heading, i would like to see council actively speaking against the container port development at the port of Hastings. but also actively lobby environmentally sustainable businesses to take up operation at the land set aside for port activities. at the well-being heading, I would have liked to see some effort by council on encouragement of sustainable and affordable housing in our major activity centres for the aged and young people. This could be achieved by lobbying the state government to spend money on these services in our region.
