

Dear Santa Premier...

Mornington
Peninsula Shire

For too long, the Mornington Peninsula Shire has been overlooked and underfunded by the state government. This Christmas, we ask for:

Roads

State roads are deteriorating, creating dangerous potholes. Adequate funding and maintenance of **YOUR** roads is essential for community safety and tourism.

Homelessness

Our Shire has Victoria's highest homelessness rate, number of women and over 55s sleeping rough. We lack funded outreach and crisis accommodation which is **YOUR** responsibility.

Rosebud Hospital

Your \$4 million pledge is appreciated, but we need \$396 million to provide a metropolitan-standard hospital for southern Peninsula residents and 8 million annual visitors.

Housing

Significant local disadvantage demands fair investment in social and affordable housing. Consider reinvesting **YOUR** Short Stay Levy income raised locally, back into our community.

Coastal Management

We manage 10% of Victoria's coastline, facing significant erosion risks. Ongoing funding is critical to protect beaches and ensure safe access.

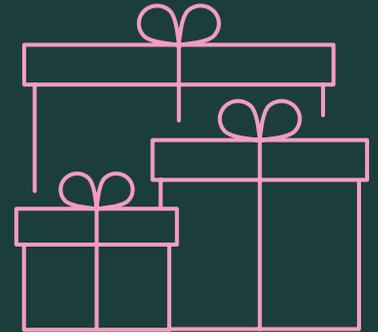

Port of Hastings Surplus Land

Unlock economic potential by determining surplus land use. Fund strategic planning and community engagement to consider housing, agriculture, and industrial opportunities.

Our community is counting on you. It's time to give the Peninsula the investment it deserves.
