

How to calculate how many toilets are needed

Peak crowd at any one time	Male (30% must be WC's)	Female	All access	Drinking Foundations
500	2	3	1	4
700	2	4	1	5
1000	3	5	1	7
1500	4	8	1	10
2000	5	10	1	14
3000	8	15	1	20
3500	9	18	1	24
4000	10	20	1	27
5000	13	25	1	34
6000	15	30	1	40
7000	18	35	1	47
8000	20	40	1	54

Please be aware that you will need to hire additional portable toilets if public toilets are inadequate for the anticipated crowd. If you plan to use public toilets at your event site, include them in your final count. All access toilets also must be provided.
