No

How would the proposal affect you?

I am a neighbour

In summary, my comments are:

I am strongly supportive of the environmental amendment which strikes a balance between a place of amenity for locals and visitors, but also the valuable environment and ecosystems present on the estuary. With so little remnant or native vegetation on the Peninsula, it is essential that areas like this are protected and treasured. Particularly in a time of climate and biodiversity crisis.

In summary, my comments are:

There needs to be a balanced approach to protect our estuary & surrounds both now and into the future for our community's families, children & grandchildren (in our case 2 children & 5 grandkids!). Our Peninsula is a fragile environment & the pace & extent of intrusion & "over-development" is on all fronts alarming.

In summary, my comments are:

Anything that strengthens protection of reserves on the Mornington Peninsular is worthwhile. I have done voluntary work in the Balcombe Creek area for a number of years and strongly support any effort to preserve this area for future generations of users. It is a great asset that deserves the protection of Amendment C241morn.

In summary, my comments are:

It is important to keep the Estuary area as it offers people the pleasure of being in nature and exposes future generations to the native flora and fauna. In the Estuary you can still make physical and emotional connections to the environment, which is rare in our overdeveloped community.

[REDACTED]

My apologies for the lack of detail.

I wholeheartedly support the proposal, as I am a supporter of BERG and a local resident who makes regular use of the area. I believe the area is unique and needs to be protected for today's and our future generations.

Many thanks for reaching out.

Regards,

[REDACTED]

In summary, my comments are:

This proposal aims to find a fair and reasonable balance between human needs for recreation and the need to conserve the precious little remaining bushland in the area. The proposal also looks to the future, with the aim of conserving natural habitat for wildlife and green spaces for human health and well-being of the next generations.

In summary, my comments are:

The Reserves are such an important place for not only locals but visitors. It's important to keep the reserves clear of contaminants and an overlay will help towards that. I am a donor to the Balcombe Estuary Reserves Group because they work hard to maintain and protect these areas as bushland that I used to enjoy before becoming virtually housebound.

In summary, my comments are:

I support the amendment because it will help protect our reserves. These reserves are irreplaceable assets to the community and once gone would be gone forever. The natural environment on the peninsula is diminishing all the time with increased housing and other uses so it is vital to protect this area.

In summary, my comments are:

I strongly support the highest possible protection for the bushland of the Balcombe Estuary Reserves. They are a special place at the heart of Mt Martha, an integral part of a biolink (bushland corridor) that extends to The Briars and beyond, and provide crucial habitat for our native fauna, with a wide range of native flora species and many different ecological vegetation classes, some of them threatened on the Mornington Peninsula. They are also much loved and used by the local community, valued for the integrity of the bushland and the sense of peace and 'natural therapy' they offer. The reserves are irreplaceable - with so little bushland left on the Peninsula, we cannot afford to lose more.

In summary, my comments are:

I support the proposal in the belief that it will help to protect our reserves while offering the best protection for them now and into the future. With such little vegetation remaining on the Peninsula there is a compelling need to protect the Balcombe Estuary and its associated reserves - which represent an irreplaceable asset to the wider community.
