5.0 POLICY STATEMENT

5.1 Overarching Principles

5.1.1 Policy holds a key role in the good governance of the Council and supports the objectives and functions of Council as described in the Act.

5.1.2 The Shire develops, reviews, documents and records policies through consistent processes that ensure all policies are necessary, coherent, comprehensive, current, understandable, consistent, documented, recorded and effectively disseminated.

5.1.3 Council policy is governed by the following principles of good policy:

- policy serves to ensure uniform direction, understanding and administration, identifies accountability and underpins transparency.
- policy is developed in response to regulatory or legislative requirements, identified operational needs and/or to establish strategic positions based on issues raised by the community, the Local, State or Federal Governments.
- policy aligns with regulatory and legislative requirements and reflects established codes, standards and the Council's adopted organisational values and Council Plan.
- policy is based on accurate, quality research and data, recognised best practice, and guidelines and recommendations issued by governing and peak bodies.
- policy is informed by inclusive consultation with relevant stakeholders and with reference to Strategic Policy, Legislative Policy, Strategy and decisions of the Council.
- policy considers risk, legal and financial implications broadly across the Shire.
- policy documentation uses clear, simple, consistent, accessible language.
- policy is reviewed, amended or rescinded in a timely manner and in accordance with established timeframes. These timeframes should be informed by legislative requirements, best practice, changes to regulatory frameworks, Council direction and community expectations.
- policy documentation is formatted consistently for useability and to aid understanding.
- policy documentation is recorded consistently and listed in a policy register that is managed centrally.
- policy is effectively disseminated to Shire officers, Councillors and the community.
- definitions used are to be used in accordance with Attachment 1.

5.2 The Policy Hierarchy

5.2.1 The Policy Hierarchy is an overview of the documents that define and govern the Shire's activities.

5.2.2 The Policy Hierarchy coupled with the definitions identify how policies are to be named and how different policies inform and are informed by policy documents within the hierarchy.

5.2.3 The Policy Hierarchy establishes which policy documents are endorsed by Council and which by the Chief Executive Officer. Council endorsed policies are owned by Council.

5.2.4 If a policy is to be endorsed by the Council, then it must be developed and implemented in accordance with this Policy Management Policy and Attachment 2.

5.2.5 If a policy is to be endorsed by Management, then it must be developed and implemented in accordance with this Policy Management Policy and Attachment 3.

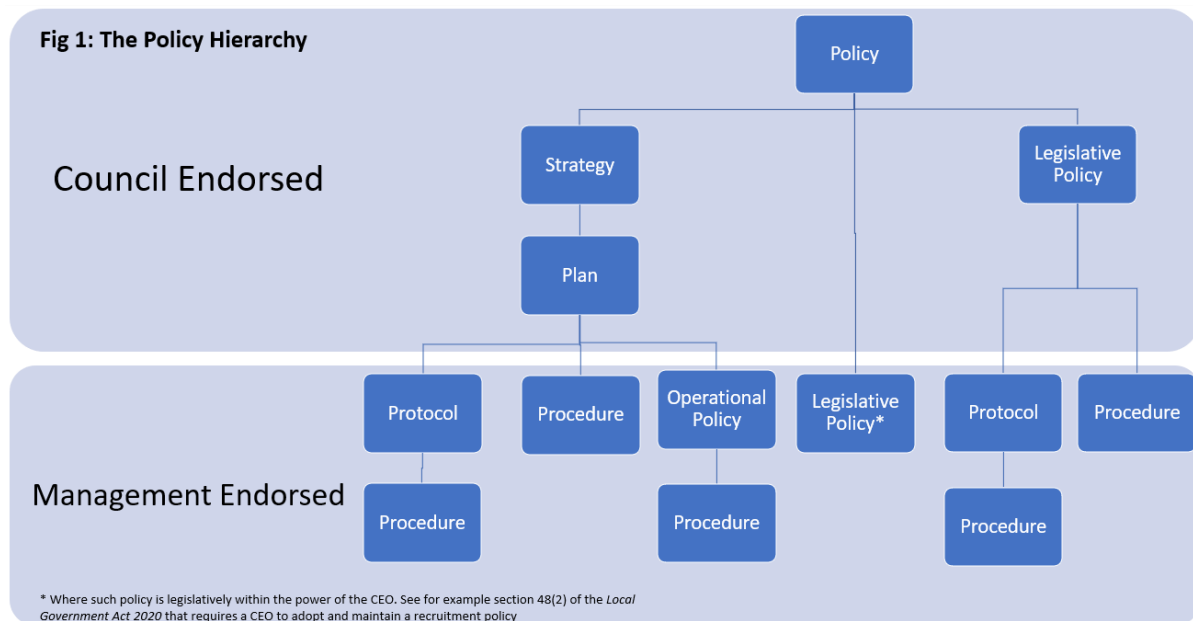

5.2.6 Protocols and Procedures may be endorsed by the Executive in accordance with Attachment 3, or if considered appropriate by the relevant Manager or Director, approved by that Manager or Director. Council Policy

Policy Management Policy

- 5.2.7 While not every policy position will require all documents in the hierarchy, it is accepted that a policy Framework will include one or more of the policy documents from the hierarchy. For example, a policy Framework may include a Strategy, Plan and Procedure or a Plan and a Procedure or a Legislative Policy and a Protocol.
- 5.2.8 It is accepted that Guidelines may be available to inform the development of a Council policy or may be developed by the Shire to assist with the implementation of a Council policy. Such Guidelines do not have a formal part in the Policy Hierarchy, but it is acknowledged that they will be used and developed at various levels of the Policy Hierarchy.
- 5.2.9 Notwithstanding that a policy document falls within the Management Endorsed Policy in the Policy Hierarchy, it does not mean that Council endorsement may not be appropriate. For those policy documents that have significant community impact or are contentious or topical, the officer must present the policy to Council. In those instances, it would be appropriate to comply with Attachment 2.
- 5.2.10 It is expected that any amendments or reviews made to policy are approved in the same manner in which the initial policy was approved.

- 5.2.11 The policy review cycle is every four years, or earlier as required.
